MEMORANDUM FOR THE DOD POW/MIA CENTRAL DOCUMENTATION OFFICE

SUBJECT: Senate Select Committee Request For Correlation

- 1. Attached, per request of the Senate Select Committee on POW/MIA Affairs dated 13 July 1992, is an NSA input to the correlation of information contained in the approximately 3000 reports delivered under cover of my Memorandum of 9 July 1992 with other related collateral information. This information updates our original correlation provided in May 1992 and is also being provided to DIA for their definitive correlation.
- 2. In addition, our continuing search through NSA archival storage has resulted in the retrieval of eleven POW/MIA-related product reports/translations issued in 1961 and 1962 (Enclosure 2), 5 of which are relevant to specific POW/MIA cases. These five reports have been incorporated into our POW/MIA correlation study.

NSA SIGINT CORRELATION STUDY - POW/MIA

(S-CCO) This SIGINT correlation study is an NSA analytical working aid attempting to correlate all available Vietnam War era SIGINT to specific POW/MIA cases. The correlations are based on NSA field site reporting, NSA end product and summary reporting, US forces summaries introduced into SIGINT reporting channels, and (SIGINT) reporting. The correlations are not definitive and require validation by DIA.

- (C)— Our overall goal in conducting the study was to ensure that all Vietnam War era SIGINT has been scrutinized for any information possibly pertaining to POW/MIA's and all POW/MIA related SIGINT has been provided to DIA to assist in resolving the POW/MIA issue.
- (U) This is an ongoing study and consequently this document may be updated due to further analysis or as more information becomes available. Please direct questions on document content to B51 POW/MIA Tiger Team, 963-6270s.

NSA SIGINT CORRELATION STUDY - POW/MIA

Background:

(C) In November 1991, in response to the newly-established Senate Select Committee on POW/MIA Affairs, we initiated a search through records, archives, and computer storage for all data relating to the Vietnam War era POW/MIA issue. The results of previous similar studies were reviewed, and a B51 POW/MIA Tiger Team was formed to concentrate solely on this task.

(S-CCO) Primary emphasis was placed on the retrieval and review of NSA and field site SIGINT reporting during the war years. Over 7.5 million reports were machine scanned, of which, over 30,000 reports potentially relevant to the POW/MIA issue were extracted. These 30,000 plus reports were then manually scanned, and nearly 6,200 were retained for further analysis. Of the 6,200 reports retained, over 4,500 were determined to have information pertaining to U.S. POW/MIA's. Over 1,500 of these reports contained names of, or could be correlated to, individuals who were either lost or taken prisoner during the war.

(C) All correlations are considered initial analysis and are forwarded to DIA for review and further study. At DIA the possible correlations are subjected to an in-depth validation process using all-source information and the official individual case files.

(S-CCO)— As of 20 August 1992, we have made 878 possible correlations to U.S. POW/MIA's in SIGINT. Of these 878 individuals, 448 are resolved cases where the individual was a POW and was returned at Operation Homecoming or the individual's remains have been returned or recovered. The remaining 430 cases possibly reflected in SIGINT are, to date, unresolved cases.

NSA SIGINT CORRELATION STUDY - POW/MIA

Utilization:

(U) The following paragraphs will aid the reader in fully understanding the data contained in the correlation study. Note that while all data is listed here on the guide, some data may not be included for any one individual case.

(S-CCO) All entries are listed chronologically. While the Refno (Reference Number) system was intended to be a chronological format, some entries were made after the fact, causing some Refno's to be out of order when listed chronologically. We found that a chronological system, supplemented by the case Refno's was easiest to work.

First entry for each case contains;

- 1) The DIA case Refno
- 2) The individual's name
- 3) The individual's rank
- 4) The individual's branch of service
- 5) The individual's status as currently carried by DOD, and date of return if a resolved case (Abbreviations are expanded on next page)

Second entry for each case contains;

- 1) Date of loss
- 2) Country of loss

Third entry for each case contains;

Vehicle of loss (in most cases an aircraft)

- 1) Aircraft type
- 2) Aircraft type nickname
- 3) Aircraft tail number
- 4) Aircrew mission callsign

Fourth entry for each case contains;

Unit of assignment and base of departure at time of loss (for naval aviators aircraft carrier vice base)

Fifth entry for each case contains;

Report serial and report Date/Time Group (DTG)

Subsequent Entries;

Amplifying data. The amplifying data is notated in one or a combination of three formats:

- Summary of information; A concise summary of pertinent information.
- 2) Verbatim extracts from SIGINT reports; Annotated by quotation marks, extracts of pertinent information exactly as reported.
- 3) Analyst's notes; Preceded by "Notes", analyst's comments or analyst's inclusion of pertinent collateral source or background information.
- 4) DIA preliminary assessment; Cases reviewed by DIA to date, along with initial validity assessment.

Errata:

(U) Status Abbreviations; For ease in analysis and compatability with other DOD POW/MIA records, the B51 correlation study utilizes the same status abbreviations contained in DIA's POW/MIA listing, "U.S. Personnel, Southeast Asia (and Selected Foreign Nationals", dated 9 March 1992. These abbreviations are as follows:

AA = AWOL/Deserter

BB = KIA, Body not recovered

BR = KIA, Body recovered

CC = Civilian Detainee, released

EE = Escapee

KK = Died in Captivity (remains unrecovered)

KR = Died in Captivity (remains returned)

MM = Missing in Action (MIA)

NR = Negotiated remains returned

PP = Prisoner of War (POW)

RR = Returnee (released alive)

XX = Presumptive finding of death

ZM = Post 1975 yacht related detainee

ZR = Post 1975 yacht related detainee, released

-- = Status not recorded

(S-CCO) B51 POW/MIA correlations, as of 15 August 1992:

Correlated cases; 878 individuals

Resolved cases; 448 individuals

"PP"	POW (last known status)	=	1
"XX"	Presumed Dead (XX)	=	228
	Status Unknown	=	7

(S-CCO) Additionally, the correlation study has 79 individuals on the list who were not correlated in SIGINT, but were crewmembers/involved in the same incident with correlated cases, and are included to aid in analysis of the subject cases.

         - Two F-105's lost. A MAYDAY call was heard from one of the
           pilots on the ground awaiting rescue by SAR forces. The call
           possibly came from Hawkins (listed "Presumed dead") but was more
           probably from Forby (taken prisoner).
         - DIA preliminary assessment; Initial NSA correlation for this
           incident is incorrect. The messages that NSA correlated to
           Hawkins correlate to John R. Harris, rescued 20 Sep 1965 in the
           same general area as mentioned in the SIGINT intercepts. DIA
           estimates that this SIGINT equates to Harris vice Refno 0150.

 - DIA preliminary assessment; DIA concurs with the initial NSA correlation for this case. First hand source reports also correlated to this incident indicated one of the crewmembers was dead on impact and buried at the site. The second crewmember was injured severely and taken away. It is possible that Nordahl died at crash site or sometime later and his remains may now be in storage. This is a highlight case because we have no word from the Vietnamese as to which crewmember died at site and the fate of the seriously injured one. Although the SIGINT does not provide any new information on Refno 0215, it does support the HUMINT and this SIGINT should be used to ask the Vietnamese about Nordahl.

(b) (3) - P.L. 86 - 36TOP SECRET UMBRA - At least seven SAM's launched against, and a minimum of 14 Mig's (including 4 from Phuc Yen) in reaction to U.S. aircraft. One A-1H noted as shot down by SAM. No reflections of aircrew status. 0497 Burke, Michael J. USMC XX /named in SIGINT/ 661019 South Vietnam Ground 3/0/STY/R296-67 132200z Dec 66 - "a U.S. helicopter was shot down in late November, killing the pilot, M. Burke" - DIA preliminary assessment; Initial NSA correlation for this incident is incorrect. The SIGINT NSA associated with this case does not in any way match the loss incident associated with Michael Burke. The individual mentioned in the intercept is referred to as "M. Burke". It is possible that an "M. Burke" lost something with his name on it that enemy used in their broadcast. DIA assessment is that this SIGINT does not correlate to any known U.S. losses. 0498 Wagener, David R.  DIA preliminary assessment; DIA concurs with initial NSA correlation for this case. SIGINT mentions one parachute which probably equates to LtCol Gaddis' who was captured immediately on the ground and returned to the U.S. in 1973. Jefferson remains unaccounted for. DIA estimate is that the parachute referred to in SIGINT equates to Gaddis. This SIGINT does not offer any new information related to Refno 0680.

        - One F-105 (D.L.Smith) and one F-4 (Carrier & Rocket) downed by
          AAA in the Kep area. The Vietnamese report an unspecified
          number of parachutes sighted and search teams dispatched. No
          further reflections of crew status noted.
          DIA preliminary assessment; DIA concurs with initial NSA
          correlation for this case and offers Refno 0718 as a related case
          also mentioned. The SIGINT was derived from intercepts of
                                       were probably intercepting NVW
          communications. The parachutes mentioned in the intercept
          probably equate to Dewey Smith, USAF captured and eventually
          returned to U.S. control in 1973. DIA assessment is that the
          parachute referenced in the SIGINT equates to Refno 0718 vice
          0717. This SIGINT does not add anything new to Refno 0717.

- "...a pilot was bailing out in the vicinity of 2034N 10642E, and the citizens in the area were searching for the pilot... the detonation of the missile was good and the pilot descended in the vicinity of 2034N 10642E, finally coming down in the vicinity of 2034N 10630E."

- SAM shootdown of unidentified aircraft. Possibly Bennett's F-105 although the coordinates are a bit too far north for those reported for him. No other aircraft correlate. The Vietnamese report the pilot bailing out and descending in his chute. Citizens in the area searching for the pilot.

- DIA preliminary assessment; Initial NSA correlation for this case is incorrect. Bennet was lost well over 100 miles from area identified in SIGINT. This SIGINT probably equates to one of the following Refno's 0820, 0821, 0822. All three of these cases were lost in roughly the same exact area mentioned in SIGINT intercept. SIGINT indicates pilot bailed out. DIA estimates the SIGINT equates to any one of the other three cases.

 - Aircraft shot down by SAM's. Crew ejected, two good parachutes sighted. Austin taken prisoner. No further info on crew status.
 - DIA preliminary assessment: DIA concurs with the initial NSA correlation for this case. SIGINT indicates that there was a shootdown which correlates to Refno 0853. However, subsequent data pertaining to a parachute being sighted is non-SIGINT information provided by wingmen of Refno 0853. Austin did successfully eject and was captured and subsequently returned to U.S. control in 1973. However, he never saw Appleby eject. This SIGINT does not add anything new to Refno 0853.

- Either Refno 1048 or Refno 1049. One unidentified aircraft shot down on 14 Feb and the pilot taken prisoner on the 15th. Two aircraft lost, an F-8E (McMahan) and an F-105D (Elliot). Coordinates tend to support Refno 1049, Elliot as the pilot.
- assessment that this SIGINT possibly relates to this case and adds Refnos 1048 and 1051 as possible candidates for the SIGINT. The SIGINT indicates a plane was possibly shot down in the Thanh Hoa area on the evening of 14 Feb and that a pilot was captured. No beeper or chute was ever seen or heard by wingmen of Refno 1049 however poor visibility may have prevented that. Area mentioned in SIGINT loosely matches 1049.     27th Battalion reports that it had infiltrated Thon Cam Lo on 29

          March and captured "an enemy guard force squad leader". The
          report stated that the prisoner would be turned over to the main
          force and that they were "exploiting the prisoner".
        - DIA preliminary assessment; DIA concurs with the initial NSA
          correlation for this case. SIGINT indicates Cichon was taken
          prisoner and HUMINT from his case files indicates that he was
          taken prisoner off the battlefield with a severe head wound. The
          SIGINT should be used to continue to seek and answer-from the
          Vietnamese regarding Cichon's fate. However, it does not add any
          new insights to Refno 1112.
        - Note: Subsequent DIA analysis concludes that this SIGINT does
          not pertain to Refno 1112.

- Note; Lost without trace during photo recce mission.
- The wreckage of the plane was found with some of the pilot's personal effects. Among the latter were two notebooks and a map. The map reportedly contained "the fire mission at several points". The pilot apparently had not been found.
- DIA preliminary assessment; Initial NSA correlation for this case is probably incorrect. The SIGINT mentions the finding of aircraft wreckage. The type of aircraft, the location, and the day of shoot down are not mentioned. The intercept probably fits a USAF RF-4 (same aircraft type as Refno 1596) which was shot down 10 April. Both crew of that aircraft were rescued. DIA estimates that the report probably equates to the RF-4 shootdown 10 April vice Refno 1596.

The SIGINT indicates six POW's were captured and that two of them were U.S.. Refno 1663 occurred during a joint U.S./SVN operation in Laos, and are the only known losses in this area. Howerver, they were lost 20 days prior to this SIGINT intercept. There are no other ground losses that are likely candidates.           *...Company 12 of the 44th AAA Battalion fired heavily ...
          bursts. A pilot bailed out and the enemy sent aircraft to fly
          cover for him. At 1245G Company 12 opened fire again and shot down one H-4. At 1300G Company 12 shot into flames one 37.
          later, an unspecified unit opened fire and damaged a
          helicopter. Two teams from Company ... seized a pirate pilot
          who was identified as being a major and also shot down another
          helicopter. At 1830G there was an evil plot to rescue the
          pilot. Note; the reference to a type "37" may be a misnomer
          or transcription error for "A-7" (good garble in Vietnamese).

 - A group of (south Vietnamese) disabled veterans stopped an
   American military/vehicle (outside of Chu Lai airfield),
   captured the three occupants and three AR-15 rifles.
 - DIA preliminary assessment; Initial NSA correlation for This
   case is incorrect. The SIGINT here equates to three U.S.
   servicemen taken hostage during a seige in Vietnam by Vietnamese
   war veterans. DIA estimates this SIGINT in no way matches the
   loss circumstances for Refno 1745.

- "shot down one UH-1", "reflected shootdown of American_aircraft
  and the capture of the pilot alive".
- DIA preliminary assessment; DIA concurs that the initial NSA
  correlation possibly relates to this case. SIGINT indicates that
  an aircraft was shotdown and a pilot captured somewhere, probably
  in Laos, on or about 21 Jan 1972. There are no known losses
  with MIA's for 21 Jan. There was an F-4 shootdown over Laos on
  20 Jan and both crewmen were rescued and that may also be the
  case referenced in SIGINT. Refno 1795 involved a helicopter.
  This SIGINT potentially represents new information for Refno
  1795 and should be included in negotiations with the Laos or
  Vietnamese governments for information regarding Refno 1795.

- Note; Loss attributed to SAM.

- An unidentified AAA site in the Dong Hoi area reprted the shootdown of an F-8 at 0644z. The aircraft was reported down at Cua Tung (south of Dong Hoi). No reflections of pilot status.

Note; probably a case of mis-identification of an F-8 for the A-7 due to their extreme visual similarity.

- An element of the 267th SAM Regiment; launched two missiles at four aircraft. One of the aircraft burst into flames and the pilot bailed out on the spot.

- An element of the 267th SAM site reported shooting down two... aircraft. The pilot of one aircraft had already been rescued and a search party had been dispatched to attempt the capture of the second pilot.

The SIGINT indicates a plane was shot down and a chute was seen. It does not indicate if the crewmember was alive or captured. Wingmen of the 2044 crew stated that they observed the plane crash with the canopy closed, which is indicative of a non-ejection. This SIGINT contradicts U.S. eyewitness reports and may be bogus. However, it may represent new information for this case and should be incorporated in an all source position and brought to the attention of the Vietnamese in negotions regarding Refno 2044.

- 241st AAA Battalion associate (southern Quang Binh Province, possible DMZ area); an aircraft was shot down and the pilot captured.
- 274th SAM Regiment controller; an unidentified aircraft was shot down in the Quang Tri area.
- Company 2, Battalion 87, 274th SAM Regiment; "one bandit (pilbt) had been captured."
- one aircraft shot down in the area of Phu Dinh.
- DIA preliminary assessment; DIA concurs with the initial NSA correlation for this case. SIGINT does not give the status of the crew. This SIGINT does not add anything new to Refno 1843.

One Mig-21 reported a shootdown.

- Two F-4 aircraft reported shot down with "many aircrew captured"
 No direct reference to any particular aircraft or crew.
- Note; Nearly all of these reports concern probably either # 1848 (Harris & Wilkinson), # 1849 (Lodge), or # 1850 (Blackburn & Rudloff).
- DIA preliminary assessment; DIA concurs with the initial NSA correlation that this possibly corrlates to this case and offers Refno's 1849 and 1850 as possibly being related. The SIGINT. mentions shooting down 14 U.S. planes and capturing many pilots. This SIGINT definitely has some degree of hyperbole in it and it is possible that the only person captured alive was from Refno 1850. This SIGINT does not specifically refer to any one crew as being captured. DIA analysis indicates that this SIGINT should be brought to the attention of the Vietnamese for clarification. However, by itself it does not offer anything new to any of the cases listed.

        - Note; Shot down on visual recon mission in DMZ area. Captain
          Murphy ejected, landed on beach, and was captured.
        - At 0500z 8 Jun, Battalion 32 of the 261st SAM Regiment (Hanoi
          area) reported that two targets had been shot down. Both of the
          targets were in flames.

    At approximately 0504z an unidentified AAA unit shot into flames

          one F-4 and it went down on the coast.
        - 261st SAM Regt; fired at two aircraft. "The first missile -
          detonated well and the target burst into flames. The second
          missile detonated at a range of 22km, 7km from the target."

    An allied aircraft went down at Cam Pho (1658N 10707E). The

          pilots bailed out over Cat Son (1700N 10707E) in the forest, but
          it's possible that they made it to the ocean. Two parachutes were
          observed descending together, and a local unit is organizing now
          to capture the pilots.
        - "The pilot was captured in the B5 area and is being transported
          north."
        - "...had captured a prisoner one km past Tai Tai on Raod 29."

"Today (10 July), our air force shot down two aircraft and captured the pirate pilots alive."

- shot down by Migs. Kep airfield reports a parachute sighted 16.2 nms away.

- DIA preliminary assessment; Initial NSA correlation for this case is incorrect. SIGINT does not indicate pilot status for this Refno other than to say a chute was sighted. The time and location of loss match Refno 1897 better than 1895. DIA estimates the SIGINT equates to 1897 vice 1895.

#1921, Musselmann.

- Chute sighted, capture of pilot poss.
- One unid aircraft shot down by SAMs. The SAM Regt dispatched teams to search for wreckage and possible survivors.
- DIA preliminary assessment; DIA concurs that the initial NSA correlation possibly relates to this case. The SIGINT indicates a plane was shot down and a parachute was seen and the possibility that a pilot was captured at Haiphong. That does not match the circumstances of loss for Refno 1920, the area is off by almost 120nm. There are no matches for the loss described in the SIGINT information. However, 1920 is the best possible candidate, if the SIGINT is true. There is a possibility that this SIGINT information is bogus. This SIGINT should be used to approach Vietnamese government regarding clarification of this incident.

             VCJ/R51-72
        - "a B-52 pilot, a LtCol, was being transferred to Hanoi"
        - 3 reported POW's, 2 reported KIA
        - One pilot captured at the AAA unit to the west of the 264th/SAM
          Regiment (located to the southwest of Hanoi).
        - "At 1910G, four aircraft were shot down and possibly two F-4
          pilots were captured... 2000G one B-52 shot down near Phu Tho,
          two of the crew were dead and three were captured ... Thus far
          five pilots had been captured."
          Numerous shootdowns reported, at least 6 prisoners reported
          captured. Due to the number of aircraft and crewmen lost, it is.
          virtually impossible to equate downed flyers with a particular
          loss without in-depth analysis of each incident.

 Note; Mr. Dean was named in SIGINT, however, Mr. Sharman was not referenced either by name or association and is only included on this list due to his affiliation with the subject case.

- "...In spite of repeated demarches, the Laotian Government has not given satisfactory answers on the disappearance of ((Charles)) Dean. In spite of the vast amount of evidence provided, the Laotian Government still states that it is not detaining the young Dean, who is a civilian tourist, not a prisoner of war..."

- the crew of the lost aircraft was identified as "one American pilot, three brigades (sic, possibly Chinese), one Filipino, and three puppets (sic, south Vietnamese) from MR3 who are being held at that place".
- DIA preliminary assessment; DIA concurs with the initial NSA correlation for this case. Some of the SIGINT indicates Rawlings may have survived the incident. However, this SIGINT had been evaluated before and based on the condition of the aircraft and HUMINT reporting Rawlings does not appear to have survived the loss incident. This recent review of the SIGINT did not add anything new to Refno 2050.
